This application is the United States national phase of PCT Application No. PCT/NL2003/00626 filed September 9, 2003. All of the references listed on Form PTO/SB/08A were cited in an International Search Report (ISR) dated March 9, 2005 for the underlying PCT application. The degree of relevance for the non-English language references is indicated in the International Search Report. English-language abstracts are provided for DE 199 51 990 C, DE 2 607 628 A, and EP 0 682 960 A (see copies enclosed herewith). No English-language abstracts are available for DE 94 07 629 U or DE 2 310 149 A. Pursuant to the Notification of Acceptance dated April 28, 2006 the ISR has already been received by the United States Patent Office; therefore a copy is not submitted herewith.

An International Preliminary Examination Report (IPER) dated March 9, 2005, indicates that the claims in the PCT application meet the international standards of patentability. The claims in the present application are similar to the claims filed in the PCT application, as amended, and should be in condition for allowance for the same reasons set forth in the International Preliminary Examination Report. A copy of the International Preliminary Examination Report is enclosed for the Examiner's convenience.

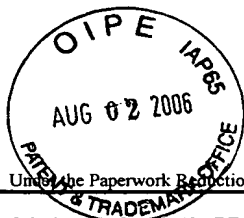

Pursuant to 37 C.F.R. § 1.97(b)(3), no fee is believed to be due for the filing of this Information Disclosure Statement as it is being submitted before a first Office Action on the merits. Nevertheless, the Commissioner for Patents is hereby authorized to charge any additional fees which may be required to Deposit Account No. 23-0650. One (1) original and two (2) copies of this Information Disclosure Statement are enclosed.

Respectfully submitted,
